Appendix A

Terms of the World Cup 2026 Knockout Stage Promo

Purpose

The Program is intended to increase participation in the Exchange's World Cup-related markets by providing Rewards (defined below) to Participants who engage in certain defined trading activity. By broadening the participant base and encouraging active trading of World Cup-related event contracts, the Program is designed to enhance market liquidity, promote efficient pricing, and benefit all participants in those markets.

Scope

The Program is available to all Self-Clearing Members (except those affiliated with Gemini Titan, those who have executed a market-making agreement with Gemini Titan, FCM and IB Members, and customers trading through FCM or IB Members) who meet the applicable eligibility requirements while the Program is in effect. All participants of the Program are subject to the Exchange's Rulebook.

Program Name

World Cup 2026 Knockout Stage Promo.

Program Term

The Program begins on or after Monday, June 29, 2026 and ends on Sunday, July 19, 2026, inclusive (the "Program Term"). Each day of the Program Term ends at 11:59 p.m. EDT.

Eligible Participants

The Program is available to all Self-Clearing Members of the Exchange other than those excluded under the Scope section of the Program. To participate, a Participant must satisfy the General Eligibility Conditions set forth below at the time of each qualifying behavior and at the time of credit distribution.

Eligible Markets

The Program applies to event contracts listed on the Exchange in connection with the knockout stage matches of the 2026 World Cup tournament ("World Cup 2026 Event Contracts"). The World Cup 2026 Event Contracts are published on the Exchange's website.

General Eligibility Conditions

The following general conditions apply to Program eligibility:

- A Participant must be a Self-Clearing Member in good standing at the time of the qualifying behavior and at the time of Reward distribution;
- A Participant must not be the subject of an open compliance investigation or review, and must not have a suspended account or suspended account privileges for any compliance or financial reason; and
- A Participant's qualifying behavior must occur during the Program Term, unless otherwise specified by the Exchange.

Qualifying Behavior

A Participant becomes eligible to receive a Reward by executing a Qualifying Trade in a World Cup Event Contract. A “Qualifying Trade” satisfies all of the following criteria:

- the trade has an executed notional value of at least $25.00;
- the trade is executed at contract odds between 20% and 80%, inclusive; and
- the trade is executed during the Program Term.

For purposes of the Program, a Participant may receive no more than one Reward per Underlying Event for each World Cup Event Contract, and no more than $20.00 in Rewards (corresponding to four Qualifying Trades on four distinct Underlying Events) per calendar day. “Underlying Event” means the specific World Cup event or occurrence to which a World Cup Event Contract relates. Accordingly:

- multiple qualifying trades in the same World Cup Event Contract earn only one Reward;
- a Qualifying Trade in a separate World Cup Event Contract may earn an additional Reward, subject to the daily $20.00 cap; and
- where multiple distinct World Cup Event Contracts are listed in connection with the same match (e.g., a match winner contract and a total goals over/under contract), a Participant may earn one Reward for each distinct qualifying Event Contract traded, subject to the daily $20.00 cap.

Additionally, trades do not aggregate for purposes of satisfying the $25.00 qualifying threshold. Accordingly:

- a single trade with an executed notional value of at least $25.00 qualifies for one Reward; and
- two or more trades each below $25.00 do not collectively qualify for a Reward.

Reward Mechanics

Each Qualifying Trade entitles the Participant to one fixed promotional credit in the amount of $5.00, which may be used only to purchase contracts on the Exchange and may not be withdrawn (each, a "Reward"). A Participant may earn no more than $20.00 in Rewards (corresponding to four Qualifying Trades on four distinct Underlying Events) per calendar day during the Program Term, and no more than one Reward per Underlying Event, in each case as described in the Qualifying Behavior section above.

Rewards are determined at the time the Qualifying Trade is executed and are credited to the Participant’s Exchange account in accordance with the Reward Distribution section below.

The maximum total Rewards a Participant may earn under the Program is $460, although may be lesser depending on the number of World Cup Event contracts listed by the exchange ($20 daily cap multiplied by 23 days of the Program Term).

Reward Distribution

Rewards (which may be denominated as “Predict Cash,” or such other name as the Exchange may designate) will be deposited into Participants’ trading accounts and may be displayed as a sub-category of Participants’ “Cash” balances. Rewards are credited to the Participant’s account upon settlement of the Qualifying Trade, with first distributions occurring on or after June 29, 2026. Rewards may only be used to purchase contracts on the Exchange.

Use Window

Rewards earned under the Program must be used to purchase contracts on the Exchange within twenty (20) calendar days from the date the Rewards are deposited into the Participant’s account. Any unused Rewards after the applicable use window will be automatically forfeited back to the Exchange.

Program Budget

The maximum per-Participant credit cap is $460.

Monitoring and Termination of Status

Gemini Titan shall monitor trading activity and Participants' performance and shall retain the right to revoke a Participant's Program status if the Exchange concludes from review that the Participant's participation in the Program is abusive or in any way inconsistent with the purpose of the Program, in which case the Rewards received by the Participant will be automatically forfeited back to the Exchange. Gemini Titan may modify or end the Program at any time.

Anti-Manipulation and Compliance

All trading activity conducted by Participants in connection with the Program is subject to the Exchange's Rulebook, including all prohibitions against fraudulent, non-competitive, unfair, or abusive trading practices. Gemini Titan will monitor for manipulative trading, wash trading, and other trading violations by Program Participants. Any Participant found to have engaged in abusive or manipulative activity in connection with qualifying behaviors will be subject to forfeiture of Rewards and additional disciplinary action under the Rulebook.
