

Huntress Managed Identity Threat Detection & Response (ITDR)

Old-school perimeter security is over. Identity threats have become the new attack boundary and your organization is only one individual, one credential, or one application away from hackers getting access to your environment.

Huntress Managed ITDR provides 24/7 identity monitoring and response to safeguard businesses against the inbound tidal wave of identity-focused tradecraft.

Key Outcomes

24/7 Eyes on Your Identities
Get continuous, comprehensive visibility with expert eyes watching your identity attack surface.

Protect, Detect, and Respond
Proactive detection and response to protect your business-critical assets.

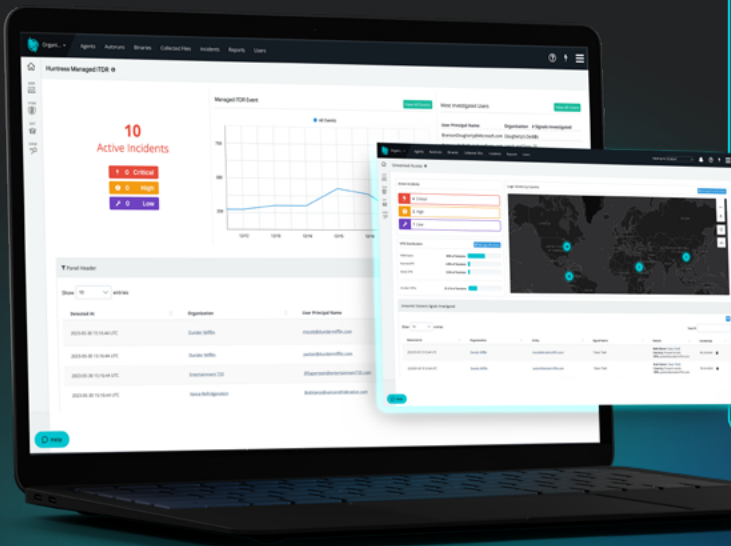

Block Unwanted Access
Prevent unauthorized access before it can compromise your business operations.

Uncover Shadow Workflows
Proactively detect and neutralize hidden threats to protect your business from covert cyberattacks.

Skip the Noise, Not the Threat
Focus your efforts on identity threats that have been verified and pose a real risk to your operations.

Your Identity Deserves Round-the-Clock Defense

Rest easy knowing your identities are guarded 24/7. Our continuous, real-time monitoring keeps a watchful eye on your entire attack surface, scrutinizing user activities and Entra event logs to catch suspicious behavior the moment it arises. Backed by a team of experts who live and breathe hacker tactics, we stay ahead of the curve to protect your environment from even the most sophisticated threats. With advanced detection that targets critical risks like account takeovers and business email compromise, we provide the vigilant defense your identity deserves.

Threats Detected

Session Hijacking

Stop hijackers and intruders from exploiting your systems.

Location-based Anomalies

Expose unusual login locations and ensure only authorized users have access to your data.

Privilege Escalation

Block unauthorized access and keep control firmly in the right hands.

Malicious Inbox & Forwarding Rules

Detect unusual activity, protect your inbox, and ensure your emails stay secure and private.

Credential Theft

Keep cybercriminals out by locking down and monitoring your identity assets.

“

Having a true managed service for email security is a game changer. We were able to resolve an issue within minutes with the help of the 24/7 Security Operations Team. Partnering with Huntress has exceeded our expectations, and we can feel the impact they've made in our work.
