

SOS Outreach needed a solution that worked for everyone. Thankfully they started **onboarding with WorkBright.**

Case Study: SOS Outreach

SOS Outreach is a growing nonprofit organization that delivers character and leadership for underserved youth to thrive through mentoring in the outdoors. SOS Outreach currently serves kids in 15 different locations across several states. They needed a system to help them onboard their employees and volunteers.

"It was just too much paperwork and not easily accessible."

-Heather Rogers, Office Coordinator

When Heather joined the SOS Outreach family, they were using paper files in a single location. The SOS Outreach team knew they'd need extra support to handle employees and mentors in different locations without depending too heavily on program managers. They needed a solution that could help them **save time and resources while onboarding employees, contractors, and volunteers.**

They needed a new system that was:

1

**Centrally-Located
And Accessible**

2

**Great For
Employees/Mentors**

3

**Easy To Use When
Running Reports**

see what happened on **page 2!**

workbright

After Implementing WorkBright

SAVED

four hours weekly
traveling to company
headquarters

REDUCED

onboarding by 30
minutes per person
(employees/mentors)

CREATED

a system that would
allow for easy
reporting

For any nonprofit that's looking to streamline its processes, this is the way to go.

How WorkBright Met SOS Outreach Goals in the words of Heather Rogers

CENTRALLY-LOCATED AND ACCESSIBLE

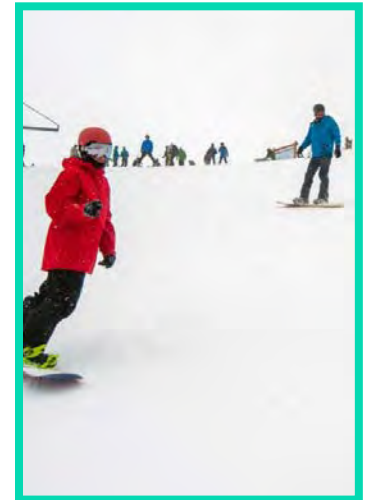

I'm located two-hours from our headquarters. I was driving there once a week, and that is four hours round trip. With WorkBright, I **don't have to drive there every time I need an employee file.**

GREAT FOR EMPLOYEES/MENTORS

We are onboarding quite a bit every year, and it all comes at the same time. Cutting thirty minutes of onboarding per hire and **using features like the rehire wizard are very helpful.**

EASY TO USE WHEN RUNNING REPORTS

Anytime our executive director contacts me and says, "*Hey, I need to know how much everyone is making, it's time to do salary increases.*" I can quickly run those reports, send it over. **It's a one-stop shop.**
