

Toole's Garage needed a scalable onboarding solution. Thankfully they started **onboarding with WorkBright.**

Case Study: Toole's Garage

Toole's Garage, a growing automotive repair shop based in California, needed a solution that could match their excellent reputation. With two locations, over 100 miles apart, Mark needed a solution that could help him onboard efficiently as the company continued to grow.

"When I first started here, it was all paper."

-Mark Berger, Operations Manager

When Mark joined the Toole's Garage family, they were using paper to handle the onboarding process. As the only person handling HR, he **knew** that there had to be a better way to deal with the growing cabinet of employee documents. When the shop expanded to another location, Mark tried other software solutions, but he quickly realized that he needed a system **focused on employee onboarding.**

They needed a new system that was:

1

**Well-Designed
For Employees**

2

**Cost-Effective For
Their Business**

3

**Easy To Implement
And Expand**

see what happened on **page 2!**

**workbright**

After Implementing WorkBright

REDUCED

the time it took to get employee information

CREATED

an easy system for sending employee documents

BUILT

trust with new employees before their first day

It was about as close as you can get to a company that doesn't have any customers except you.

How WorkBright Met Toole's Garage Goals in the words of Mark Berger

WELL-DESIGNED FOR EMPLOYEES

Our new employees get this really nifty onboarding experience that happens, and in 10 minutes, they're done. It starts them off thinking, "**This is not your regular run-of-the-mill shop.**"

COST-EFFECTIVE FOR THEIR BUSINESS

For anybody who's got anything split/separated, either a bunch of employees, a large company with a lot of hiring and firing, or more than one location, **it's definitely a great investment.**

EASY TO IMPLEMENT AND EXPAND

Within three or four days, we were looking at final stuff and making sure everything was ready to go live. I've continued to be super impressed with my rep and what she does to make WorkBright work for me.
