1

Sign: Score and cut the back letters, then cut the letters in felt. Hot glue the felt letters onto a sturdy backing like chipboard, acrylic, or even more felt. Finally, string it together with twine or ribbon for a cozy holiday touch!

2

Menu: Using light maple plywood and eco thin acrylic, cut out materials. Some words are engraved and scored. To make the menu pop, cut out Proograde Eco Thin Acrylic and glue individual letters to the spaces reading HOT COCOA BAR.

3

Stirrers: Laser cut Proofgrade Eco Thin Acrylic, remove from tray and place in a container of your choice.

4

Labels: Laser cut & engrave Proofgrade Wood Veneer (Niky used maple), then peel and stick to surface to create a custom cocoa station

Crafting Cozy with Niky: Essentials for a Perfect DIY Night

Crafting Setup

For Niky, it's all about a clean, organized space, a cup of coffee, and her favorite materials. Simple, but essential!

Entertainment

While she doesn't watch TV while crafting, she loves unwinding with winter classics like Harry Potter, Home Alone, and Christmas Vacation.

Craft Fuel

Coffee is a must for Niky, and if she's hosting a crafting night, expect a full spread with empanadas, a charcuterie board, sangria, and desserts!

Music & Mood

Soft R&B from Sabrina Claudio and Jhene Aiko sets her crafting mood, or she dives in without music for total focus.

Dream Projects

Dollhouses are her next big idea — she's always dreaming up new creative projects.

Cozy Scent & Decor

Balsam and cranberry-orange candles add holiday warmth, and her paper flowers bring charm to her workspace.
