Crafting Cozy with Lauren: Color, Comfort, and a Free Spirit Feeling

Crafting Setup

Lauren loves crafting on the floor surrounded by colorful supplies, pillows, and blankets for a total immersion in creativity. Comfort is key: think fuzzy socks, house Crocs, and a claw clip to keep her hair back.

Entertainment

Lauren's playlist? 70s rock, especially Fleetwood Mac's Silver Springs or Dreams. True crime stories are her podcast go-to, and she's deep into the Alex Murdaugh saga.

Craft Fuel

Kombucha (GT's Living in Gratitude) keeps her refreshed, but cheese puffs and spicy hummus with sliced red peppers are also favorites. Hosting a craft night? Expect a vibrant charcuterie board full of tiny plates!

Dream Projects

After getting a new pink sewing machine, Lauren's ready to start making clothes for herself and her kids — just like she used to.

Cozy Scent & Decor

Patchouli and vanilla candles set the tone, and her colorful pillows and fuzzy blankets add to the cozy vibe. Red lipstick is her signature finishing touch, adding a boost of confidence!

Crafting Quirk

Headphones are a must when the house gets loud. Her pink Beats help her find focus in the middle of the chaos. And if she could craft with anyone, it'd be her beloved Bon Bon, the biggest influence in her life growing up.
