

# 12 Days of Craftmas

DAY  
1

## Meet Bail Ansari

[@justonemoreproject](#)

Bail traded her social work cape for a laser beam, empowering laser makers to turn dreams into (sleigh) bells and whistles! When she's not wrangling her two girls or organizing the Laser Craft Fest, she's sipping coffee and designing the future of DIY—one file at a time.

## Macrame Snowflakes

Enhance your winter decor with these elegant macrame snowflakes, blending rustic charm and modern style. Choose wood or leather bases with engraved or precision-cut designs. Perfect as festive coasters, gift accents, or cozy decor!

1

Gather your supplies: 1/8" material (Bail used Proofgrade Light Cherry Plywood), 4mm cotton macrame cord (neutral for gifting), a macrame brush, and scissors.

2

Format your coasters in the Glowforge App. Make sure you set the design to "Cut", then, when you're ready, hit the glowing button! Cut out your coasters. If you're creating a gift set, consider cutting 4 to 6 coasters for each set.

3

Once cut, remove the masking. Then, cut thirty 7-inch strands of macrame cord. Using 5 strands of cord for each slot on the coaster, begin tying Lark's Head knots around the edge. Continue around the entire circle.

4

With a macrame brush, gently brush out the strands for a softer look. Trim the ends of the strands evenly to complete your coasters.

## Get Cozy with Bail: A Craft Lover's Winter Essentials

### Crafting Setup

Think warm blanket, fire, cozy socks! Bail loves macrame on the walls, wool textures, and soft lighting.

### Entertainment

Her fave holiday re-watches? The Santa Clause and Home Alone. For music, she turns on Amazon's "Calm, Cozy, Crafternoon" playlist.

### Craft Fuel

Peppermint mocha coffee is her cozy go-to. Hosting a craft night? Serve up chocolate fondue with strawberries!

### Scents & Dreams

Citrus and rosemary scents set the tone, while her bucket-list project is a custom wood panel wall with her Glowforge.

### Cozy Quirks

Messy bun, socks, and a clean workspace are a must!
