INTRODUCTION

Introducing Nando's: a global sensation renowned for its flame-grilled peri-peri chicken, marinated in signature sauces infused with African bird's eye chili. In our conversation with Zach Allen, Director of Operations Services, we discovered how TipHaus transformed Nando's tip pooling and distribution for their 1400 tipped employees, slashing payroll processing time while ensuring fair and accurate distributions. TipHaus boosted Nando's efficiency, staff retention, and happiness with compliant payroll and a custom-built POS integration.

CHALLENGE

- **Time-Consuming Manual Process:**

Before TipHaus, Nando's struggled with a labor-intensive and time-consuming manual process for tip management.

- **Lack of Transparency for Staff Members:**

Staff members faced uncertainty regarding their tip earnings, making it challenging to budget and plan their finances effectively.

- **Compliance Concerns with Labor Laws:**

Nando's compliance director faced challenges in ensuring adherence to strict labor laws, adding complexity and strain to their payroll department.

SOLUTION

Nando's implemented TipHaus:

Automating the tip pooling and distribution process reduced payroll processing time from 32 hours each month to 8 hours, **saving approximately 24 hours per month.**
