Tidel S4e Rolled Coin Dispenser

Tidel S4e Rolled Coin Dispenser

The Rolled Coin Dispenser, powered by the Tidel S4e, offers a convenient way to dispense rolled coin on demand, using a secure and auditable process.

Equipped with up to 8 coin magazines, the Tidel S4e Rolled Coin Dispenser is an ideal solution for convenience stores, supermarkets, big box retail, or other high volume cash environments.

The Tidel S4e Rolled Coin Dispenser offers a convenient way for an organization to store and dispense rolled coin whenever needed, representing a complementary addition to a store's daily cash operations. Dispensing rolled coin on demand minimizes the frequency, and therefore the expense, of third-party deliveries of rolled coin.

The Tidel S4e Rolled Coin Dispenser can be set up to hold quarters, dimes, nickels, and pennies in a variety of configurations across the four provided rolled coin magazines. Dispensing coins and accessing the coin magazines is completely auditable and managed by individual user PIN. The Tidel S4e Rolled Coin Dispenser supports 4 coin magazines per cabinet, and can be expanded to support up to two cabinets per Tidel S4e, offering a convenient way to scale the storage capacity of rolled coin whenever required.

Benefits

Flexible

Configurable

Reduce costs

Store safely

Modular Sesami Enterprise Software

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.
