Sallén RS8

**Accuracy, precision and speed
in one recycling solution**

Optimizing Cash Flow Efficiency

Nowadays new payment methods are changing the way customers pay, but cash still remains the most common form of payment. Cash provides for fast and instant payment. Cash is anonymous, indiscriminative, and is accepted worldwide. Even in countries where cash payments are on the decline, the costs associated with cash management have increased and retailers and banks are under increased pressure to process large volumes of notes and coins daily. Cash is constantly circulating and it needs to be managed effectively. Cash needs to flow easily and smoothly to make the most out of it.

Notes and coins that are not circulating or stored in the bank have no value. For them to grow and stay alive, they need to keep flowing. Improve your cash flow efficiently and safely with the Sallén RS8. The Sallén RS8 offers unprecedented capacity and speed for notes and coins, whilst maintaining maximum efficiency and accuracy.

Efficient Cash Access: Advanced Solutions

- Always have access when you need it, in the right amount and denominations ensuring you never run short or have too much.
- Improve your overall cash management experience. If cash runs easily, everyone enjoys the benefits. From customers with shorter queues, to staff with shorter reconciliation times.
- Using advanced technology in a system that combines functionality and efficiency, you achieve ROI in just 12 months.
- Cash remains untouched from tills to safes to banks. It is kept safe in a certified safe. This helps reduce the amount of cash sitting on the store floor and your store vulnerability to theft.

Key benefits:

- **Scalable:** Highly configurable allowing for the Sallén RS8 to seamless integrate within your environment.
- **Flexible:** Recycling and acceptance cassettes can be combined in numerous configurations to allow recycling of up to 8 denominations where needed.
- **Accuracy:** State of the art validation technology, assuring complete compliance with government legislation and maximizing accuracy throughout all the stages of cash recycling.

Benefits

Reliability Flexibility Scalability Efficiency Accuracy

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.

Key features

- 5 cassettes allowing up to 10 independent note compartments
- Note handling speed of up to 10 notes per second
- Coin capacity of 30,000 in 8 hoppers (€)
- Coin dispensing speed of up to 50 coins per second
- Various CEN graded safes and locks available
- Real-time cash monitoring via SES software platform, allowing remote monitoring and tracking of the cash levels
- Pre-credit of the cash amounts deposited in the machine. Details of the cash amounts are automatically sent to the bank, allowing the retailer's account to be pre-credited
- Loading function for refilling as an option
- Self inventory audit function
- LED guided flow for user friendliness
- Art.6 compliant counterfeit identification including fit / unfit recognition of notes
- Multi currency deposit and exchange
- Easy software integration into existing IT platforms

Product Specifications

Notes

Counting speed	10 notes/second
Note Bundle	Continuous feed / Deposit, Up to 100 notes / Dispense
Transport Direction	Long edge first
Capacity	Recycling: 3400 notes / cassette x 4 cassettes max Deposit: 2800 notes Total Capacity: 17000 notes
Currency	Available for 68 currencies
Dimensions	Height: 1273mm (on plinth) Height: 926mm Depth: 1040mm Width: 530mm (stand alone) Width with CR5 1025mm Weight: approx. 880kg (CEN IV safe) with CR5 Weight: approx. 780kg (CEN IV safe) stand alone R8

Coins

Bulk Coin Input	Continuous feed
Coin Input Speed	12 coins / second
Bulk Coin Output	50 coins in a cup (Optional sorted coin dispense in 8 cups)
Coin Output Speed	50 coins / second
Capacity (for EUR)	0,01 €: 4400 pcs 0,02 €: 3350 pcs 0,05 €: 2280 pcs 0,10 €: 3200 pcs 0,20 €: 2150 pcs 0,50 €: 1500 pcs 1,00 €: 1750 pcs 2,00 €: 1550 pcs Overflow €: 10000 pcs Total Capacity: 30180 pcs
Dimensions	Height: 1250mm Depth: 850mm Width: 495mm Weight: approx. 220kg

All data for capacity and speed in this brochure are result of Sesami testing. According to the conditions of use data can differ.

Sallén RS8

Find the right solution for you!

Cash Monitoring Software

Complete control over your cash handling operations with business analytics, service monitoring, end-to-end cash reconciliation and multi-device connectivity.

Cash Deposit Solutions

Save time and money with smart cash deposit solutions for retail front and back office.

Cash Recycling Solutions

Optimise your cash flow and keep cash circulating efficiently with cash recycling solutions for retail.

SafePay Closed Cash Management

SafePay replaces traditional tills with a smart recycling system which protects cash from payment all the way to the cash-counting centre.

Bank Solutions

Cash automation solutions which support bank branch transformation and cut the time staff spend working with cash.

Service

Expert support ensures that your systems run smoothly and efficiently with minimal disruption to your business.

Sesami: A single, scalable, global platform offering intelligent and sustainable cash management solutions. Sesami's AI-enabled enterprise software and intelligent devices empower the banking, retail, and service industries worldwide, transforming cash management and delivering exceptional ROI
