# Tidel S4e Bulk Coin and Note Dispenser

## Tidel S4e Bulk Coin and Note Dispenser

The Tidel S4e Bulk Coin and Note Dispenser is designed for retail organizations that have a need to dispense notes and coins in high volume, leveraging one integrated system.

The Bulk Coin and Note Dispenser offers coin and note dispensing in any quantity. Coins are dispensed into individual cups and the note dispenser supports up to 4 note denominations.

The integrated note dispenser enables secure and accountable dispensing of larger volumes of notes for start-of-shift till amounts, cash back on debit cards, check cashing, lottery payout and quick replenishment of till funds.

The coin dispensing system can dispense variable amounts of presorted coins at the touch of a button. Each coin and note dispensed is counted and accounted for by individual cashier using the integrated Tidel S4e console.

The Bulk Coin and Note Dispenser supports 6 coin hoppers, with each hopper capable of dispensing up to 8 coins per second. The coins are dispensed into individual cups for easy handling. The note dispenser holds up to 4 cassettes, with each cassette holding up to 500 notes.

### Benefits

Flexible

Configurable

Reduce costs

Store safely

Modular Sesami  
Enterprise  
Software

## Sesami Enterprise Software Platform (SES)

**Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.**

### **Hyperconnectivity**

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

### **Omnipresent Access**

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

### **Endless Adaptability**

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

### **Flexible workflow**

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

### **Advanced Reporting**

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.
