Tidel S4e

Cash Management System

Tidel S4e

The Tidel S4e smart safe offers industry-leading expansion capabilities that help retail organizations manage a wide range of cash management needs. By supporting a rich portfolio of connected peripherals, the Tidel S4e is the only choice for retail organizations that require the flexibility and scalability needed to address the broadest spectrum of cash management use cases.

Expansion Capabilities for Note Dispensing, Coin Dispensing and Recycling, and Note Validation

The Tidel S4e offers industry-leading expansion capabilities that enable retail organizations to recycle coins, dispense coins and notes, dispense rolled coin, and scale their note deposit and validation capabilities.

Connectivity and Upgradeability

The Tidel S4e and supported peripherals connect via data cables that are provided with each system. The cables are offered in up to 100' lengths, which enable unparalleled flexibility when placing the systems in a store environment. By offering this plug and play connectivity method, peripherals can be purchased and deployed after a Tidel S4e has been placed in a store, enabling a simple and convenient upgrade path.

Benefits

Flexible   **Configurable**   **Reduce costs**   **Store safely**   **Modular Sesami Enterprise Software**

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.
