Tidel S3 Storage Vault

Tidel S3 Storage Vault

The Tidel S3 smart safe provides retailers a convenient way to securely deposit cash throughout their business day. The Tidel S3 provides increased security, greater accountability, and reduced risk for a store's cash environment. The Tidel S3 removes the manual burden of recording and reconciling cash deposits, allowing store personnel to focus on more productive tasks.

The most recent addition to the Tidel S3 family is the offering of a separate manual storage vault. The storage vault allows store personnel to perform manual currency drops, and later enable access to those drops, without providing access to the note cassettes. The vault can also be used to store items such as paper rolls or bags of coin.

The Tidel S3 offers an expansive software suite that provides a complete cash management application with full accountability and auditability of all system activity. The Tidel S3 can easily connect to a store's network - via Ethernet or cellular – enabling full visibility to all system transactions from a remote location. The Tidel S3 with Storage Vault offers an easy to use 7-inch color console and comes equipped with one single note validator and supports one standard (1,200 note) cassette.

Serviceability on the Tidel S3 is extremely efficient and cost-effective. The main CPU board and power supply are easily accessible via the system console, making service calls faster, more secure, and cost efficient. The Tidel S3 note validator can be easily removed to clear a note jam, without the need for an expensive service call.

Benefits

Flexible

Configurable

Reduce costs

Store safely

Modular Sesami Enterprise Software

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.

Specifications

Model specifications

Model	Tidel S3 with Storage Vault	Tidel S3 with Storage Vault and Single Coin Acceptor Module
Weight:	88 lbs. (40 kg)	105 lbs. (47 kg)
Height:	27.75" (705 mm)	27.75" (705 mm)
Width:	10.2" (259 mm)	15.6" (396 mm)
Depth: vault only	15.25" (387 mm)	15.25" (387 mm)
Depth: overall	19" (482 mm)	19" (482 mm)

Hardware Features

- 7" color console
- Power supply and main CPU board accessible via the console
- One note validator – single note feed
- Support for one standard (1,200 note) cassette
- Support for single coin acceptor module
- Separate manual drop vault
- Removable note validator head
- Personal Identification Number (PIN) and/or iButton allows managed access to functions, reports, and instant access
- Integrated thermal printer
- RoHS Compliant/CE, UL Certified

Software Features

- Includes a complete cash management application
- All activity auditable to an individual user through the use of PINs
- Can be connected to Ethernet network for interface to • POS, back office PC, or remote locations
- Advanced accounting features allow for extensive list of reports
- Supports network downloads for software upgrades or for new currency releases
- Customized reports can be downloaded from a remote location
- Storage for 48,000 financial and security transactions to better facilitate auditing

Warranty

- 1 year parts and 90 days labor (inside the US)
- 1 year parts only (outside the US)

Power Requirements

120 VAC 60Hz or 220 VAC 50Hz
