Arca CM18

Superior performance

Arca CM18

Superior performance

The Product

Quite possibly the most reliable cash recycler ever built.

For years, the Arca CM18 has offered extraordinary value, performing manual cash-handling tasks much faster than a cashier... without typically human errors.

Arca CM18 takes care of the cash handling work, while the cashiers can focus on customer service. The design and reliability have earned Arca CM18 an excellent reputation in the market.

Arca CM18 is the basis of the Sesami platform for cash recycling.

Flexibility

The height of the CM18 Short was designed to adapt perfectly to branch desks.

Arca CM18 Tall, on the other hand, was designed for use by a standing user, while maintaining the same size.

Additionally, Arca CM18 Tall offers scalable capacity that can grow from 6 to 12 recycling modules per roll. This is achieved simply by inserting more modules.

Modules can be configured for any mix of denominations to meet branch needs.

It is the perfect solution to be shared by two or more users.

Characteristics

- Capacity: Up to 500 banknotes per roll
- Deposit batches of up to 200 banknotes with no limits per transaction
- Comprehensive image sensors for visible light, UV and IR plus magnetic sensors
- RS232, USB 2.0 and TCP/IP connectivity

Arca CM18 Tall: 6/8/10/12 rollers

- UL 291 safe dimensions: (h × w × d): 37 x 17.3 x 36 inches
- Weight (12 rollers): 948 lbs
- CENIII safe dimensions: (h × w × d): 38.8 x 19.6 x 37.2 inches
- Weight (12 rollers): 1323 lbs

Arca CM18 Short: 6/8 rollers

- UL 291 safe dimensions (h × w × d): 26.4 x 17.3 x 36 inches
- Weight (8 rollers): 697 lbs
- CENIII safe dimensions: (h × w × d): 27 x 19.6 x 37.2 inches
- Weight (8 rollers): 1000 lbs
