

Tidel S4e

High Capacity Note Dispenser - Gen 2

Tidel S4e High Capacity Note Dispenser - Gen 2

The Tidel S4e High Capacity Note Dispenser – Gen 2 is designed for retail organizations that have a need to dispense a high volume of notes, using a secure and auditable process.

The Tidel S4e High Capacity Note Dispenser – Gen 2 supports four cassettes, with each cassette capable of storing up to 3000 notes. The system has the capability to dispense up to 7 notes per second. More than one cassette can be used for the same note denomination.

Dispensing notes and accessing the note cassettes are completely auditable and managed

by individual user PIN. Note dispensing limits can be set on a per individual basis.

The Tidel S4e High Capacity Note Dispenser – Gen 2 measures 30.75" high, making it ideally suited to be placed under a retail store counter.

The High Capacity Note Dispenser – Gen 2 is ideal for filling till drawers at start-of-shift, check cashing, debit card cash back, till drawer replenishment, and making change from large notes.

Benefits

Flexible

Configurable

Reduce costs

Store safely

Modular Sesami
Enterprise
Software

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.
