SafePay RC5000

An Automated Checkout Device for Cash Payments

Cashier Facing

Assisted Self Checkout

Self Checkout
SafePay RC5000

The SafePay RC5000 provides retailers a reliable and adaptable solution that secures and automates cash payments at multiple points within a store. With its small footprint and modular design, SafePay fits under the counter and integrates into a self-checkout terminal or a cashier-facing payment terminal. The rich design and feature set provides unparalleled use case flexibility – enabling retailers to automate cash payments for an optimal employee and customer experience.

Closed Cash Management
With the SafePay RC5000, cash deposits are securely counted and stored, preventing access to cash at any time, thus enabling an effective closed cash management process.

Multiple Deployment Scenarios
The SafePay RC5000 has been designed to fit under a counter, enabling it to easily integrate as a self-checkout solution, assisted self-checkout solution, or cashier- facing payment terminal.

System Reporting and Monitoring
The SafePay RC5000 offers the intelligence required to be a component of a comprehensive cash management dashboard, point-of-sale system, or remote service monitoring tool.

Streamlined System Maintenance
SafePay has been architected in such a way to enable plug and play replacement of key components as well as remote problem resolution via its software platform.

Benefits

| Closed and controlled Cash Handling at checkout | Extensive in-store security in front and back office | Pre-Crediting integration | Simple staff maintenance | Designed for self-service or cashier operation |

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
SES connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, SES adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible Workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of SES, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of SES Suite modules, including Balance for your finances and Enhance for your service operations.
