**Versatility, reliability and security
in a teller cash recycler**

Keep your cash flowing

Whether it is too much cash or too little, this can cause unnecessary costs. By having the right amount of cash, at the right time, this will optimize your business. Cash recycling is a highly versatile solution designed to adapt to various business environments. Our cash recyclers use a mature technology that combines reliability, functionality and efficiency. Maximise your return of investment with our cash recycling range.

In banking it's all about security and customer experience. Cash recycling automates cash authentication and eliminates the burdens of ensuring accuracy, fitness and accountability. This allows for operational transformations with the branches and allowing tellers to take on more dynamic and customer centric roles. Beyond security, the cash recycler has optimal capacity to meet every banks individual needs and requirements.

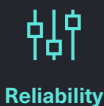

Utmost reliability is achieved through state-of-the-art

note sensor, combined with an innovative transport technology which translates into maximum uptime. Seamless software integration and installation minimises disruption to your banks activities. Global service presence worldwide.

Keep your cash

- **Flowing Steadily:** Access cash when you need it. Collect the necessary amount and the exact denominations. With cash recycling you never run short or have too much.
- **Flowing Smoothly:** From retailers with less cash sitting on the store floor, to banks with more money flowing into bank accounts.
- **Flowing Endlessly:** Using advanced technology in a system that combines functionality and efficiency.
- **Flowing Safely:** Cash is kept secure in a CEVIV certified safe. Article 6 compliant with ability to isolate counterfeit and sort according to fitness.

Versatility

Scalable

Efficiency

Sesami Enterprise Software Platform (SES)

Hyperconnectivity

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the

features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

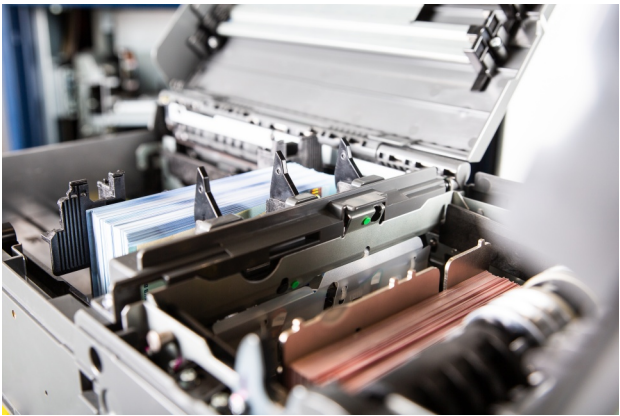

Choose from the full range of software modules, including modules for your finances and for your service operations.

Key benefits

- **Reliability:** Hybrid transport technology allowing steady note transport despite wear and tear. Unidirectional transport system with minimum gates.
- **Flexible:** Recycling and acceptance cassettes can be combined in numerous configurations to allow recycling of up to 8 denominations where needed.
- **Accuracy:** State of the art validation technology, assuring complete compliance with government legislation and maximising accuracy throughout all the stages of cash recycling.
- **Self Recovery:** The unit will attempt to recover critical hardware errors without human intervention.
- **Functions:** Deposit, dispense, replenish, remote diagnostics and self-recovery are just some of the key features.

Key features

- 5 cassettes allowing up to 10 independent note compartments with a maximum capacity of 17000 notes
- Note handling speed of up to 10 notes per second
- Various CEN graded safes and locks available
- Real-time cash monitoring via our SES software platform, allowing remote monitoring and tracking of the cash levels

Product Specifications

Notes

Counting speed	10 notes/second
Note Bundle	Continuous feed / Deposit, Up to 100 notes / Dispense
Transport Direction	Long edge first
Capacity	Recycling: 3400 notes / cassette x 4 cassettes max Deposit: 2800 notes Total Capacity: 17000 notes
Dimensions	Height: 920 mm. 780 mm under the counter. Depth: 1070 mm. Width: 530 mm. Weight: 665 Kg. aprox. (CEN IV safe).
