# Tidel S3 Single Coin Acceptor

## Tidel S3 Single Coin Acceptor

The Tidel S3 smart safe enables retailers to securely deposit their cash throughout their business day. When equipped with the Single Coin Acceptor module, retailers now have the ability to deposit individual coins into a secure coin receptacle, allowing for a fast and convenient way to deposit coins whenever required. The Single Coin Acceptor module provides an easy to use interface for the depositing of coin and also comes equipped with a return button in the event a coin is placed into the deposit slot yet doesn't get recognized. All note and coin deposits are recorded, enabling complete transparency and auditability for all cash transactions.

The Tidel S3 offers an expansive software suite that provides a complete cash management application with full accountability and auditability of all system activity. The Tidel S3 can easily connect to a store's network - via Ethernet or cellular – enabling full visibility to all system transactions from a remote location. The Tidel S3 offers an easy to use 7-inch color console and comes equipped with one single or bulk note validator, supports one standard (1,200 note) or XL (2,250 note) cassette, and offers an optional manual storage vault for non-cash items such as checks.

### Benefits

Flexible

Configurable

Reduce costs

Store safely

Modular Sesami  
Enterprise  
Software

## Sesami Enterprise Software Platform (SES)

**Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.**

### **Hyperconnectivity**

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

### **Omnipresent Access**

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

### **Endless Adaptability**

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

### **Flexible workflow**

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

### **Advanced Reporting**

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.
