

**TACC IIA**

# TACC IIA

Since its introduction in 1978, the TACC (Timed Access Cash Controller) from Tidel has become the standard for deterring robbery and improving cash handling processes for retail locations in over 50 countries worldwide. The industry-leading TACC IIA continues that legacy today by providing a simple, user-friendly interface, easy-

to-use cash dispensing, receipt drop operations, and high reliability, all in a cost effective solution. The TACC IIA minimizes everyday accounting burdens, allowing your managers and employees to spend more time with customers and less time managing money.

### Benefits

Reliable

User-friendly

Reduce costs

Modular Sesami  
Enterprise  
Software

## Sesami Enterprise Software Platform (SES)

**Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.**

### **Hyperconnectivity**

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

### **Omnipresent Access**

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

### **Endless Adaptability**

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

### **Flexible workflow**

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

### **Advanced Reporting**

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.

# Specifications
