Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.

The Tidel R400 has been designed to provide retail organizations with the right combination of speed, capacity, and configurability, making it the ideal choice for those organizations that have a need to automate and streamline their cash management processes, make better use of their store labor, and reduce third party fees. The following are key features of the Tidel R400 that make it the right choice for cash intensive businesses:

Integrated Design

Sporting a built-in 15" touchscreen, multiple interface options, and convenient access to the note cassettes, the Tidel R400 has been designed with an optimized footprint and

ergonomic design, enabling it to be easily deployed within numerous retail environments.

Note Processing Speed and Capacity

The Tidel R400 is capable of processing notes at a rate of 10 notes per second, making it an ideal solution for cash-intensive businesses where speed of transactions is

critical. The Tidel R400 also supports a capacity of up to 14,250 notes, which helps minimize replenishment occurrences and third party CIT fees.

Enhanced Security

The Tidel R400 offers a UL291 Level 1/CEN L safe in addition to a separate, access controlled vault for the note cassettes, which helps promote a more secure transaction

environment. The Tidel R4000 also offers biometric authentication, enabling a higher level of secure authentication.

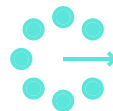

Cassette Configurability

The Tidel R400 offers 5 note cassettes – at least one of which must be configured as a deposit cassette – while the remaining cassettes can be configured in any mix of

deposit and recycle cassettes to best meet your needs. In addition, each recycle cassette can be configured in a split cassette format, which enables one physical cassette to recycle two different note denominations. This level of configurability enables the R400 to support up to 6 note denominations per system.

Multiple System Interfaces

The Tidel R400 offers a multitude of interface options, including a 15" integrated touchscreen, fingerprint reader, NFC reader, and a barcode scanner, offering

organizations the broadest suite of options in which to interact with the system.

Tidel R400 with Optional Drop Vaults

The Tidel R400 drop vaults provide a secure and convenient way to perform manual currency drops whenever required. The Tidel recycler drop vaults are offered in two different styles – a standard size drop vault and a larger drop vault that offers an additional storage compartment. This storage compartment enables secure storage of items such as paper rolls, coin bags or other accessories. Each drop vault, as well as the additional storage compartment, requires biometric access, offering additional levels of security and convenience. The recycler drop vaults easily connect to Tidel R400 note recyclers via the provided data cable.

Specifications

	Recycler Drop Vault with Storage	Recycler Drop Vault
Internal Volume Capacity		
— Top Chamber	1.7 cubic feet	
— Bottom Chamber	1.2 cubic feet	1.3 cubic feet

Dimensions and Weight

Width	10" (254 mm)	10" (254 mm)
Depth	30" (762 mm)	20" (508 mm)
Height	44.5" (1,130.3 mm)	29.63" (752.6 mm)
Weight	405 lbs. (183.7 kg)	100 lbs. (45.36 kg)

Tidel R400 with Rolled Coin Dispensing

The Tidel Rolled Coin Dispenser, powered by the Tidel R400, offers a convenient way to dispense rolled coin on demand, using a secure and auditable process. Equipped with 8 coin magazines, the Tidel Rolled Coin Dispenser is an ideal solution for convenience stores, supermarkets, big box retail, or other high volume cash environments. The Rolled Coin Dispenser offers a convenient way for an organization to store and dispense rolled coin whenever needed, representing a complementary addition to a store's daily cash operations. Dispensing rolled coin on demand minimizes the frequency, and therefore the expense, of third party deliveries of rolled coin.

Specifications

	Standard Capacity	High Capacity
Coin Magazines	4	8
Coin Capacity Per Magazine	1¢: 160 rolls 5¢: 130 rolls 10¢: 180 rolls 25¢: 100 rolls	1¢: 160 rolls 5¢: 130 rolls 10¢: 180 rolls 25¢: 100 rolls

Dimensions and Weight (Dispenser Only)
