# Tidel S4 Narrow Side Vault

## Tidel S4 Narrow Side Vault

The Narrow Side Vault, when deployed with the Tidel S4, is an ideal solution for retail organizations that require a proven cash management system accompanied by a dedicated vault for additional storage.

The Tidel S4 Narrow Side Vault can be used for the store's change fund, coin dispensing cartridges, or other items such as lottery tickets.

The Tidel S4 Narrow Side Vault offers two shelves that can be configured to a store's individual needs. The Tidel S4 Narrow Side Vault door can only be opened by preauthorized store personnel via individual user PIN. An audible alarm sounds if a door is left open longer than a programmable time period.

The Tidel S4 Narrow Side Vault also provides a manual vault drop below the acceptor door, offering additional storage.

### Benefits

Flexible

Configurable

Reduce costs

Store safely

Modular Sesami  
Enterprise  
Software

## Sesami Enterprise Software Platform (SES)

**Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.**

### **Hyperconnectivity**

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

### **Omnipresent Access**

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

### **Endless Adaptability**

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

### **Flexible workflow**

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

### **Advanced Reporting**

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.

## Specifications

### Model specifications
