Tidel S4

Adaptable, Fast, and Flexible Cash Management System with Multiple Vault Options

Tidel S4

A flexible, highly configurable, compact cash deposit solution

The Tidel S4 provides retail organizations a secure and effective way to manage their cash deposits throughout the day. The Tidel S4 is highly configurable, offering support for single and bulk note validators, a choice of manual drop vault options, and connectivity to a suite of peripherals – all designed to fit under the counter, at point of sale. The Tidel S4 has been designed to
address the cash security needs of a broad spectrum of retail organizations.

Enhanced serviceability, straight to your bottom line

The Tidel S4 has been designed to enable streamlined serviceability. The Tidel S4 main CPU board and power supply are easily accessible via the console, making service calls faster, more secure, and less expensive. The note validator maintenance door enables authorized store personnel to clear note jams without the need for an expensive service call.

Deisgn efficiency from edge to edge

The Tidel S4 can be configured as a stand-alone system, with a height of a mere 18 inches, or it can be configured with a storage vault, mailbox drop vault, or pedestal to reach counter height compatibility. To manage the in-store change fund, the Tidel S4 also supports the Tube Vend module.

A user experience second to noneU

Sporting a 7-inch color console with enhanced touchscreen capability, navigating menus has never been easier. The Tidel S4 also incorporates an integrated printer, which offers automated paper feed capability, an integrated paper cutter, and see-through screen to detect when the paper supply is running low.

Flexible and scalable note capacity options

Supporting either single or bulk note validators, the Tidel S4 can accommodate two note cassettes that hold up to 1,200 notes per cassette (standard version) or 2,250 notes per cassette (XL version). The Tidel S4 also supports single or bulk note validators.

Benefits

Flexible   Configurable   Reduce costs   Store safely   Modular Sesami Enterprise Software

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.

Depth:	28.5" (724 mm) overall	28.5" (724 mm) overall	28.5" (724 mm) overall	28.5" (724 mm) overall

Hardware Features

- 7" Color console screen
- Power supply and main CPU board accessible via the console
- 3 bottom options - storage vault (includes drop slot), mailbox drop vault, or pedestal
- Support for single or bulk note validators
- Support for standard (1,200 notes) or XL (2,250 notes) cassettes
- Personal Identification Number (PIN) and/or iButton allows managed access to functions, reports, and instant access
- Note validator maintenance door - enables validator heads to be removed in the event of a note jam
- Integrated thermal printer with receipt cutter
- RoHS Compliant/CE, UL Certified

Software Features

- All bulk coin dispense transactions are completely auditable and managed by individual user PIN
- Buy Change function allows for the exchange of a note for bulk change
- Includes a complete cash management application and advanced accounting features allow for extensive list of reports
- Supports network downloads for software upgrades or for new currency releases
- Can be connected to Ethernet network for interface to Pos, back office PC, or remote locations, and remote reports can be downloaded using an Ethernet or optional cellular connection

Warranty

- 1 year parts and 90 days labor (inside the US)
- 1 year parts only (outside the US)

Power Requirements

- 120 VAC 60Hz or 220 VAC 50Hz
