Sallén D3

Compact, Secure and Efficient Cash Processing

Sallén D3 family

Higher capacity and still compact.
The D3, D3s and D3c are part of our compact deposit unit range. They streamline daily cash processes and improve the overall efficiency of all the employees that deal with cash management.

The compact range is designed to help small to midsize retailers and carry out quick and safe cash deposit transactions with maximum adaptability to your needs. The different compact solutions adapt to your needs in terms of size, capacity and type of storage. All compact range series run with our SES platform.

Maximum security and efficiency in one compact unit
• Deposit banknotes (D3, D3s) and coins (D3c) in bag.
• Different graded safes available (to CEN type IV)
• Real time accountancy of each transaction.
• Web remote management and administration (including banknote validator upgrades).
• Multicurrency for notes (in the same transaction!).
• Multilanguage.
• Sesami One Time Code system to open the safe.
• Common platform for all Sesami Deposit Range.
• Visual and tactile interface via colour touch screen.
• Various cloud connections simultaneously.

Benefits

Multi cloud   **Different identification formats**   **Multicurrency within one deposit**   **SES Platform**

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity
SES connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access
Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability
Designed to be flexible and modular, SES adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible Workflow
Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of SES, which adapt to your business goals.

Advanced Reporting
Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of SES Suite modules, including Balance for your finances and Enhance for your service operations.
