Sallén D4 Family

A flexible, compact cash deposit solution

Sallén D4 Family

A flexible, compact cash deposit solution

Manually managing the flow of currency into business is a high-cost, low-return task which also represents a significant security risk.

The Sallén D4 range automates the process allowing you to streamline cash flow, improve productivity, and eliminate time-consuming manual procedures all while ensuring a secure environment for your customers and employees.

Retail solution with CIT features

- Ideal solution for medium cash volume retailers and businesses where security and process optimisation matter the most.
- Sallén D4 standard model has service access from the top for flexible placement in the back office or under the counter.
- Multiple deposit option within range: Sallén D4

with free fall deposit, Sallén D4 SS for stacked banknotes and the Sallén D4 LARGE for deposit in a sustainable canvas bag.

- New Sesami Cash Management Note Reader performs accurate validation and authentication of banknotes at up to 100 notes per minute.
- Multicurrency handles up to six currencies in the same transaction.
- Serial number recognition.
- 200 dpi screen for transmissive and reflective images, two infrared wavelengths and UV images.
- Certified by the European Central Bank and Gold Certification from the Bank of England.

Benefits

Different

Hyper-
connectivity

Reduce costs

Store safely

Modular Sesami
Enterprise
Software

Sesami Enterprise Software Platform (SES)

Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity

Connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, the Sesami Enterprise Software Platform adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of the Sesami Enterprise Software Platform, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of software modules, including modules for your finances and for your service operations.
