Access Control Installers and Resellers
Quick Start Guide

We've Made it Easy to Get Started!

Simplicity is the key to Kindoo's unique modern access control solution. We've combined the latest in smartphone credentialing and Cloud based access management eliminating the need for expensive physical credentials and on-site network IT expertise. And Kindoo is compatible with ANY electronic lock, gate, turnstile or security entrance, making it easier than ever for businesses, organizations and consumers to implement advanced access control more cost-efficiently and easily than ever before.

Three Easy Steps to Increase Revenue...

1. **Login to your personal partner portal to:**
   - Set-up your own pricing
   - Access documentation and sales materials
   - Receive real-time monitoring of customers' credentials purchases
   - Cash-out revenues
   - Purchase Kindoo hardware

2. **Install the Kindoo electronic actuator on your customers' existing electronic locking device or install our Surface Mounted Strike (battery-operated and wired configurations available). Just follow the simple installation instructions.**
   - Note that if your customer prefers a hardwired device, our Surface Mounted Strike is available in a wired configuration that requires local power.

3. **Have customer admins download the Kindoo App where customers can:**
   - Remotely on-board and off-board all visitors 24/7 from anywhere they have internet access
   - Add permanent and/or subscription user seats as needed
   - Name specific Kindoo access doors/sites and manage access rights and permissions
   - Users can use the Kindoo app to open doors
   - Monitor activity 24/7 with the ability to create custom pop-up messages for users
