Notes to the Condensed Interim Consolidated Financial Statements For the Three Months Ended March 31, 2023, and 2022 (Expressed in Canadian Dollars)

1. CORPORATE INFORMATION

Legible is an e-book entertainment and media company that has developed a browser-first, globally distributed reading and publishing platform that offers a sophisticated and immersive reading experience to anyone with an internet-enabled device anywhere in the world, while solving key challenges faced by readers, publishers, and authors. This includes providing planned global access to literature without the need for e-readers and apps, improving the capacity to showcase marginalized voices, opening new device-agnostic markets, and innovating new digital publishing formats.

The Company and its wholly owned subsidiary, Legible Media Inc., were incorporated under the Alberta Business Corporations Act and the British Columbia Business Corporations Act, respectively. The head office is located at 2230 Ontario Street, Vancouver, B.C. V5T 2X2. The Company's common shares are listed on the Canadian Securities Exchange ("CSE") under the symbol "READ" and trading commenced on December 1, 2021. On January 10, 2022, the Company's common shares commenced trading on the Frankfurt Stock Exchange (FSE) under the trading symbol DOT (D/zero/T). On January 25, 2023, the Company began trading on the U.S. based OTCQB Venture Market under the symbol LEBGF.

2. BASIS of PREPARATION and GOING CONCERN

Statement of compliance

These consolidated financial statements, including comparatives, of the Company and its subsidiaries are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (IASB). Certain comparative figures have been reclassified to conform to the presentation used in the current period.

Going concern

These condensed interim consolidated financial statements have been prepared on a going concern basis, which contemplates that the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. To date, the Company has not achieved scalable commercialization of its products.

As of March 31, 2023, the Company has limited revenue and generated negative cash flows from operating activities. The continued operations of the Company depends on its ability to generate future cash flows or obtain additional financing. The Company has a working capital deficit of \$2,892,013 (December 31, 2022 - \$2,405,433) and an accumulated deficit of \$23,783,961 (December 31, 2022 - \$22,567,407) since inception. Management has determined, in making its assessment, that these events or conditions create a material uncertainty that cast significant doubt upon the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern depends on its ability to generate product sales, complete additional financings, and ultimately, attain and maintain profitable operations. While the Company is striving to act on these initiatives, there is no assurance that these and other strategies will be successful or sufficient to permit the Company to continue as a going concern.

Notes to the Condensed Interim Consolidated Financial Statements For the Three Months Ended March 31, 2023, and 2022 (Expressed in Canadian Dollars)

Basis of preparation and going concern: (continued)

Going concern (continued)

These condensed interim consolidated financial statements do not reflect adjustments to the carrying values of the Company's assets and liabilities, revenue and expenses, and the statement of financial position that would be necessary if the going concern assumption was not appropriate. Such adjustments could be material.

Basis of measurement

These condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments which are measured at their fair value as explained in the accounting policies set out below. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Use of estimates and judgments

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenue, and expenses.

Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Significant judgments made by management in the process of applying accounting policies that have the most significant effect on the amounts recognized in the financial statements include the application of the going concern assumption and the discount rates used in valuing the liability component of convertible debentures.

The application of the Company's accounting policy for intangible assets requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the consolidated statement of loss and comprehensive loss in the period the new information becomes available.

Principles of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Legible Media Inc. A subsidiary is an entity controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of the subsidiary are included in the condensed interim consolidated financial statements from the date that control commences until the date that control ceases. All significant inter-company balances and transactions between the Company and its subsidiary have been eliminated in preparing the condensed interim consolidated financial statements.

Notes to the Condensed Interim Consolidated Financial Statements For the Three Months Ended March 31, 2023, and 2022 (Expressed in Canadian Dollars)

Basis of preparation and going concern: (continued)

Functional and presentation currency

These condensed interim financial statements are presented in Canadian dollars, which is the functional and reporting currency of the Company and its subsidiary.

Accounting standards issued but not yet effective

Accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's condensed interim consolidated financial statements.

11. FINANCIAL RISK MANAGEMENT OBJECTIVES and POLICIES

The risk exposure arising from financial instruments is summarized as follows:

- a. Credit risk The Company's financial assets are cash and amounts receivable. The maximum exposure to credit risk, as at the period end, is the carrying value of their financial assets. The Company holds its cash in a bank account with a highly rated Canadian financial institution, therefore, minimizing the Company's credit risk in respect to its cash.
- b. Liquidity risk The Corporation's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company monitors its forecasted and actual cash flows as well as any anticipated investing, and financing activities. The Company, currently, does not have recurring revenue, and is working diligently on securing additional funding to meet short-term financial obligations after considering its operating obligations and cash on hand (see note 2).

c. Market risk - Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices will affect the Company's income or value of its holdings or financial instruments. The Company's major activities have been transacted in Canadian dollars for the three months ended March 31, 2023. As such, the Company has minimal market risks.

12. CAPITAL RISK MANAGEMENT

The Company's primary objective when managing capital is to maintain sufficient resources and raise funding to support current and long-term operating needs. The ability to continue as a going concern is essential to the Company's goal of providing returns to shareholders and other stakeholders. The capital structure of the Company consists of shareholders' equity. The Company manages its capital structure based on the level of funds available to the Company to manage its operations and in light of economic conditions. The Company balances its overall capital through new share or debt issuances or by undertaking other activities as deemed appropriate in the circumstances. The Company is not subject to externally imposed capital requirements. There have been no significant changes in the Company's approach to capital management during the year. These objectives and strategies are reviewed on a continuous basis.
