

Los Angeles Data Center

Built for security and resilience, ready for your hybrid strategy

Located in downtown Los Angeles, our operations in the CoreSite LA3 data center support high-density, next-generation edge infrastructure with direct access to North America's largest interconnection community.

CERTIFIED AND RELIABLE

Both this site, and our operations, are SOC 2 and ISO 27001 certified. Plus this facility also comes with NIST 800-53, PCI DSS, and HIPAA certifications.

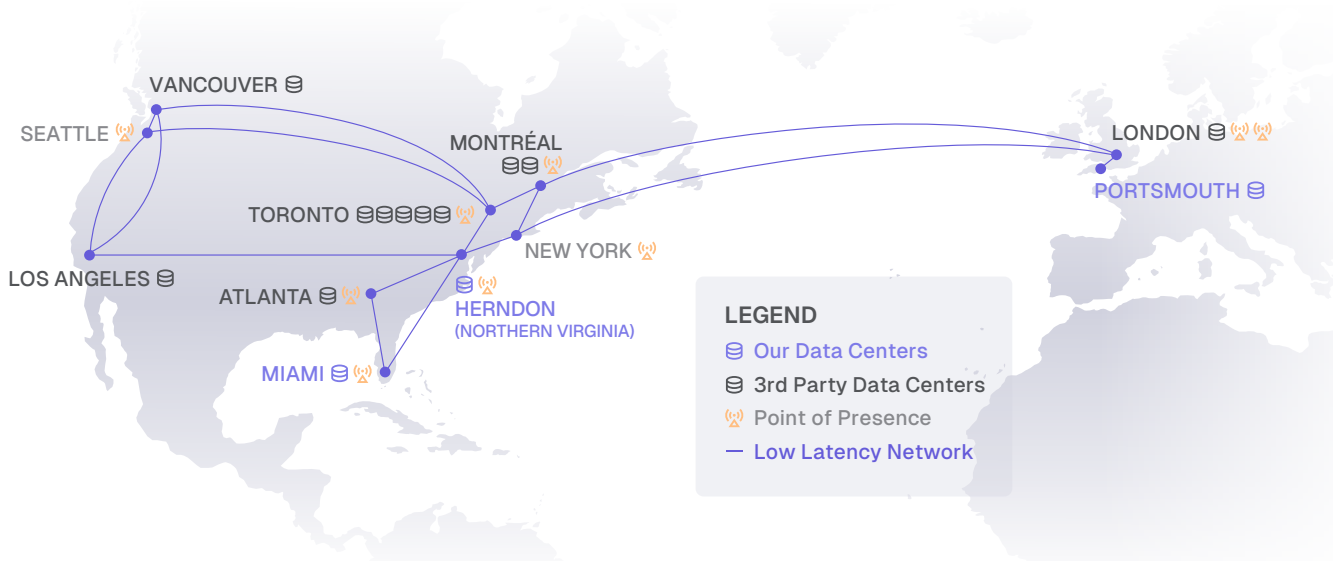

24X7 PERSONALIZED SUPPORT

Our Smart Hands & Eyes service, available 24x7 at the LA data center, provides on-site IT expertise to keep your equipment running smoothly, no matter where you are.

ULTIMATE FLEXIBILITY

With access to hundreds of connectivity options, including our own global network, our carrier-neutral offering provides the ultimate flexibility for your network needs.

Our Locations:

LEGEND

- Our Data Centers
- 3rd Party Data Centers
- Point of Presence
- Low Latency Network

>Hybrid Cloud >Private Cloud >Public Cloud >Hosting >Network & Protection >24/7 Human Support

Facility Specifications:

AVAILABLE SERVICES

- Hosting
- Private Cloud
- Managed Colocation
- Escorted-access Colocation

BUILDING DETAILS

- Perimeter fence
- Concrete and steel construction
- Passenger elevator with 5000 lbs load capacity
- Freight elevator with 10000 lbs load capacity
- Power delivery below floor; communication delivery above rack
- Storage facilities available
- Proximity: 19 miles to Los Angeles
- International Airport (LAX), 1 mile to downtown Los Angeles

COOLING

- State-of-the-art mission-critical controls and monitoring
- Variable speed fans for optimal efficiency
- Self-contained rooftop AC units with integrated dehumidification system and air-side economization with N+1 redundancy
- Hot/cold aisle setup

POWER

- Diverse utility feeds
- N+1 redundancy for high-efficiency UPS systems and generators
- Power taken at 12kV to achieve rate reduction and distribution efficiencies
- On-site diesel fuel storage for a minimum of 24 hours; multiple fuel contracts

SECURITY

Centralized card access control system with dual factor biometric authentication

Advanced video surveillance with at least 90 days of retention

Man-trap entry system to prevent tailgating

AVAILABLE CARRIERS*:

All major carries available through interconnect offerings

CONNECTIVITY

Our global low latency network with core uptime SLA

Any2Exchange® for internet peering and BBIX

Diverse POEs, MDFs and IDF's

Cross connects via Single mode fiber (SMF)

AMENITIES & FAQs

Shipping and receiving services available

On-site parking

Meeting Room, Kitchen

RELIABILITY

Systems above 500-year flood plain

Earthquake resistance construction

RF Code readers for pin-point accuracy of temperature and humidity within customer deployments

Dual-interlock pre-action dry-pipe sprinkler system with VESDA

24x7 Smart Hands & Eyes availability for customers' technical assistance needs

24x7 Network Operations Center (NOC)

COMPLIANCE

SOC 2

ISO 27001

PCI-DSS (Facility Only)

NIST 800-53 (Facility Only)

HIPPA (Facility Only)

ADDITIONAL SERVICES

Hosting

Public Cloud

Private Cloud

Network Management Services

24/7 Human Support

Building Specifications:

HEIGHT MEASUREMENTS

- Slab-to-Slab – 18 ft.
- Ceiling – 11 ft.
- Raised floor – 36 in.

DESIGN FLEXIBILITY

- Space configuration: Rack/Cabinet
- Cabinet/Rack standard: 24" W x 48" D x 93" H (48RU)
- Floor load: 1,500 lbs. per tile

Why Aptum Colocation?

Founded as PEER 1 over 25 years ago, we are committed to helping founders and innovators succeed. We believe in the transformative power of combining people, infrastructure, and the internet, and the freedom that affords you to thrive and innovate.

We are passionate problem-solvers, taking an agnostic approach to creating custom solutions collaboratively with our customers. We can help you uncover when and where colocation can be the ideal choice for you.

Partner with us to get a colocation solution that is built to evolve with you.

What do you get with our colocation?

FLEXIBLE COLOCATION TIERS

Choose from wholesale (custom cages/multi-cabinet setups), retail (half/full cabinets with scalable power), or managed (per-unit service with flexible wattage, connectivity, and support).

SECURE, RELIABLE DATA CENTERS

Get peace of mind with ISO 27001, SOC 2 Type II, PCI DSS compliance, 24/7 monitoring, multi-layer security, redundant power, advanced cooling, and fire prevention for maximum uptime.

SEAMLESS CONNECTIVITY

Keep everything connected - to the internet, your offices, public clouds, and your hybrid environments. Options like MPLS, Cloud On-Ramp, and more, keep your data moving efficiently and reliably.

POWERFUL MANAGEMENT TOOLS

Monitor, track inventory, manage assets, and access expert support with industry-leading tools.

CUSTOM POWER & DESIGN

Power configurations and cabinet designs tailored to your infrastructure.

EXPERT ON-SITE SUPPORT

'Smart Hands & Eyes' for remote monitoring and expert assistance available on demand.

BUSINESS CONTINUITY & DISASTER RECOVERY

From basic backups to full disaster recovery planning and execution, ensure uninterrupted operations for your business.
