DANE ELECTRIC:

How Dane Electric Boosts Efficiency and Cuts Invoicing Time by Over 30% with BuildOps

The Challenge

OKC's Dane Electric struggled with their outdated system. Quotes, jobs, and invoices were isolated, leading to missed opportunities and inefficiencies.

> "We didn't know which projects had outstanding invoices or if they had been sent at all"
>
> **Jason Watts, Assistant Service Manager**

This led them to BuildOps, which offered seamless integration and fast adoption with strong support, even for the field crew.

With BuildOps, Dane Electric can

✓ Build recommendations and quotes in the field

✓ Establish unique work orders

✓ Track charges with attached supply house invoices

> "I'd recommend BuildOps to anyone with a service team of any size"
>
> **Jason Watts**

The BuildOps ROI

🕐 **Time Efficiency:**
Invoicing time cut by over 30%, speeding up cash flow and boosting financial stability.

◎ **Accuracy:**
More accurate material invoicing, reducing errors and increasing profitability.

Decision-Making:
Improved tracking of quote success, enabling more strategic business decisions.
