Electrical & Automation

Dear Stakeholder,

We are pleased to announce the launch of our new brand “Lauritz Knudsen Electrical & Automation” on 29th May 2024 which will replace the existing brand, L&T Switchgear.

We sincerely thank you for your patronage & support over the last seven decades. We eagerly anticipate continuing this journey under the new name.

During this transition, the specific product names shall remain unchanged, such as ACBs - OMEGA & C-POWER, MCCB-DSine, Final Distribution Products (MCBs, RCCB, RCBO) – AU / Exora, Contactors -MNX/MO/MCX, Industrial Automation, Wiring Accessories, Metering products etc. Our products now feature a refreshed look that reflects our brand image and brings more consistency across our product line. However, please note that this change will not affect the ordering CAT numbers, technical parameters, and dimensions of our product range. Once the old brand material is exhausted, we will exclusively supply products under our new brand identity.

We assure you that this brand transition will be seamless, ensuring continuous availability of the products, including spares and after-sales support throughout the product's life cycle, whether under the L&T Switchgear or Lauritz Knudsen brand. Product warranties, as per our standard terms, will be honoured for products in both brands.

We kindly request you to update our new brand, Lauritz Knudsen Electrical & Automation, in your list of approved makes.

Thank you for your continued support and cooperation.

A handwritten signature in blue ink, reading 'Naresh Kumar'.

Best regards,

Naresh Kumar,

FINAL DISTRIBUTION PRODUCTS

World Class Safety Standards

Tripper products conform to relevant global standards viz., IEC, EN and IS. They also have CE/ISI marking and DEKRA certification.

Safety Redefined

Finger proof terminals eliminate chances of accidental contact with live parts. You can install, operate and maintain tripper with total confidence.

Energy Limiting Class - 3

If fault occurs, the rapid arc quenching mechanism operates and extinguishes the arc quickly, ensuring lowest possible energy flow through the circuit. This minimizes risk of fire and maximizes life of your equipment.

Safety Meets Superior Aesthetics

Ergonomically designed, profiled for superior cooling and manufactured with fire retardant material. Tripper offers user safety combined with elegance.

True Contact Indication

Tripper range enhances safety through true contact indication even from a distance regardless of it's knob position. Red and Green indication flag positively identifies the electrical ON/OFF status.

Innovatively Profiled Breathing Channels

When two or more poles are placed adjacent to each other, the breathing channels are so profiled that the air circulates around individual pole, resulting in cooler operation, year after year.

Large Terminal Size & Biconnect

Tripper can easily accommodate cables of up to 35 sq.mm. Biconnect terminals offer convenience of connecting both cable and bus bar.

Two Position DIN Rail Clip

Installation on a DIN rail is further simplified with a two position DIN rail clip as a standard feature. Tripper range makes mounting on a standard DIN rail more convenient.

Non-Welding Contacts

Silver Graphite contact tips ensure higher life and maximum safety against contact welding due to it's superior anti-welding properties, enhancing safety and life of the system.

Combihead Screw

Tripper range of products provided with combihead screws allow you to use standard as well as Phillips screwdrivers, offering flexibility.

HIGHLIGHTS

- marked, marked
- Conforms to IS/IEC 60898 - 6 kA
- Higher life with use of heavy duty contacts
- Innovatively designed breathing channels between poles ensure cooler operation
- Energy saving - watt loss approximately 50% lower than those prescribed by IEC standard
- Manufactured with high quality fire retardant material
- True contact indication for enhanced safety

VALUE + STYLE

The Tripbox PLUS range of Distribution Boards offer the perfect blend of aesthetics and value. Crafted for modern homes, its features ensure ease of installation, enhanced safety and protection with a dash of style.

SAFETY WITH STYLE

Options for flush and surface mounting

Powder - coated, matte finish - RAL9003

Insulated Busbar

As per IS 8623 Standards

Shrouded neutral bars to avoid accidental contact with live parts

EASE OF INSTALLATION

Reversible door for double door Distribution Boards to adapt to site conditions

More space for ease of wiring

PROTECTION FROM DAMAGE

CRCA sheet steel for extra durability

Plastic corners for corner protection

Cement spill protector - To protect DB interior from cement splashes during civil work

SPN DISTRIBUTION BOARDS

- As per IS 8623
- Available in 4, 6, 8, 12 & 16 way

englaze

#SWITCHUP

When you have stepped beyond the ordinary, every step you take elevates you. Every step is a switch up. Flawlessly flat and majestically minimal, englaze would silently stay a testament to your taste, the life you lived and the world you built around you.

**SWITCH UP TO THE EXTRAORDINARY.
SWITCH UP TO ENGLAZE.**

ANTI-BACTERIAL

No need to keep disinfecting your switches. No one can tarnish the silver infused Englaze range that stays anti-bacterial forever.

FABULOUSLY FLAT LOOK

Englaze is designed to look flat from every angle. With super thin plates and carefully crafted switches, these don't bulge or clutter, they just stay pretty.

SMART CONNECTORS

Don't go searching for adapters now, plug in everything directly with smart connectors. HDMI, VGA, RCA, USB for data & charging and just about everything you need.

REAL MATERIAL PLATES

Real Material Plates are meticulously crafted from authentic, high-quality materials such as genuine wood, metal alloys and premium glass. Choose from various finishes, textures, and colours to create a truly personalized statement.

BEAUTIFULLY BRIDGELESS

Our design philosophy allows no room for gaps. Every element seamlessly flows into the next like a well written poem.

SAFETY SHUTTERS

Go ahead and let your children be mischievous. Every socket is carefully designed with safety shutters to keep them safe.

INDICATIVE REGULATORS

Don't worry about fumbling with the regulators anymore, these beauties come with indicators that tell you exactly what speed its on. Plus, its so pretty!

TESTED FOR INTERNATIONAL STANDARD

Your safety is our top priority. englaze products undergo rigorous testing to meet safety standards, ensuring your peace of mind while using them in your home or workspace.

SOFT FEEL SWITCHES

Welcome home the silent beauty. Nothing can disturb you, not even a toggling of switches with englaze soft feel switches.

QUICK CHARGING

No need to wait any longer to charge your devices. With USB type A and USB type C charging solutions you can charge your devices faster and safer.

TOUCH THE FUTURE

No need to get out of the middle of the great conversations to turn the devices on/off. Now control your devices with IR remote control and feather Touch interface with a luxurious experience.

FLAT DESIGN FAN REGULATOR

Flat Fan regulator design concept to compliment the flat design philosophy of englaze range.
