## ARGO

### RELIABLE COMPACT BOX PC

Themis Argo is a compact Box PC for a variety of applications like POS and Digital Signage or it can be simply used as a Desktop PC. It is running completely fanless with either Intel's Quad Core Celeron J1900 or Intel's 6th Generation Dual Core i3-6100U. With its dust proof and robust design the Themis Argo is a performant high reliability BOX PC for everyday use. The operation of two displays running independently are supported with its VGA and HDMI output, whereas the Core-i3 version also supports a 4K resolution. All four serial ports can be optional powered with 5 or 12V with easy jumper settings behind the front cover. The hard drive can be swapped very easily from the front for easy maintenance.
