**Notes:**

\* Continuous currents at 2 kHz switching frequency

\*\*Frame 12 is only available as an unassigned power module (M000) and an M700 control module must also be ordered

Internal 125 kw brake chopper included as standard.

Implement 2.8 MW drive systems by connecting this module in parallel

For more information on these features and the rest of the capabilities of this module, please see the latest issue of the Modular Power brochure
